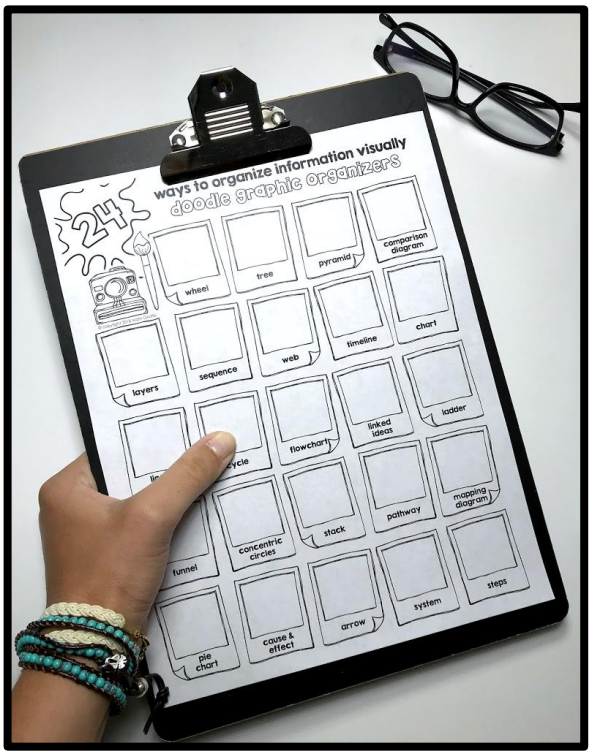
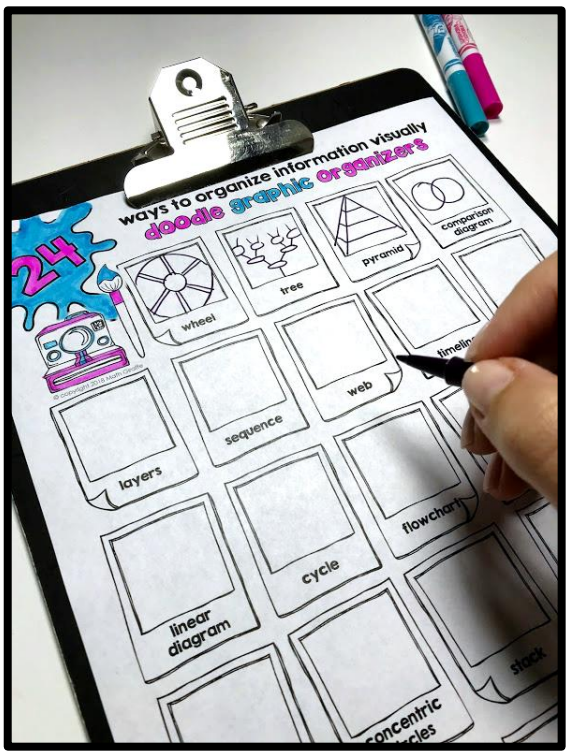
how to use

Print this free download to allow students to explore ways to organize information when they create sketch / doodle notes!

Or print the completed one for them to just keep as a reference!





This will help them build up ideas of how to best organize information with different types of connections and relationships between concepts.

(Give them a mental toolkit of doodle-friendly graphic organizers!)

For easy review templates, get your class this giant deck of 100 graphic organizer cards!

The structure is provided to customize to any lesson (plus blank ones for kids to add their own using ideas from the structures they explored above!)

Click here to purchase.

Terms of Use

Thanks so much for downloading this file!
